Hi Jeff,

I successfully downloaded and extracted the file and have passed it on to Richard.

Hi Eric,

The zipped file is uploaded. Please let me know if you need anything further.

Thank you,

Jeff

Hi Jeff,

You should be receiving an email from the VITA Large File Transfer service that will allow you to send the file to me and I can download it from there. I believe it only takes zip files so you'll need to zip the PST before uploading it. Let me know if you run into any trouble.

Subject: RE: Follow-up Information

Good afternoon Jeff,

Thank you for compiling this information. I have copied one of our IT staff members, Eric Myer on this email to assist in the transfer of these files. I will ask Eric to contact you and arrange for the data to be sent to him, since he is more familiar with this file type; Eric will then get the files to me internally. Thanks again and I appreciate your expediency with getting us this information!

Rich

Mr. Scholl,

We are in the process of pulling the communications that you have requested. Please let me know how you would like to receive the requested data. We can export the data to a .PST file and share that with you via Office365 SharePoint, where you can download it, or other means as you wish.

To the best of my knowledge, Mr. Carmack conducts his HEC Foundation communications using his [swcenter.edu](mailto:jeff.webb@swcenter.edu) email account. There is an email domain associated with the Foundation, but I believe that only the grants administrator, Alicia Young, uses it for Foundation business. Our HEC IT staff doesn't manage that domain and any associated email account(s).

Please let me know how to proceed with getting the data to you.

Thanks,

Jeff

Richard,

I am copying my reply to Jeff Webb who is the Director of IT Services at the center. He will be in contact with you and assist you in your research. Please let us know if there is anything else I can do to assist the Commonwealth. David.

Good morning Mr. Matlock and hope all is well!

Thank you for meeting with us last week; we found it to be very helpful and productive as we look into our inquiry.

OSIG is interested in further researching Mr. Carmack's email communications during specific timeframes. Do you have an IT point of contact that can get us Mr. Carmack's work emails? I assume Mr. Carmack uses his regular swcenter.edu when conducting HEC Foundation business? If not, please let me know of any associated/foundation email addresses Carmack may have.

Specifically, we are looking for all email communications from dcarmack@swcenter.edu from November 15, 2015 to February 15, 2016 and also October 15, 2017 to present. We may expand that request as we move forward, but currently just need these two timeframes.

Let me know if it is easier for us to get our IT person to speak directly with your IT person or if you rather just submit this request.

Thanks again for all your help!

Rich
